

A NEW CHURCH BUILDING

We have been meeting in the same old barn for over four years. It has served us well - but there have always been some drawbacks to its location. The church is about half way down a rather steep hill making it hard to see / and hard to get to during the rainy season. A few months back some land was donated that is right next to the main road (*about 1/2 mile away from the current church*). It is relatively flat and has an incredible view of the mountains. The decision was made to build a new church facility there. The building will be similar to what we use now - grass roof (*because it is much cooler*) / and no walls (*so the breeze can blow through*). The posts and beams will be made from cement to give the building strength. We will also build several grass huts for the Children's ministry and youth. Every Saturday we have a workday and everyone comes out to help build the church (*young and old alike*). All in all we estimate it will take us about 3-4 months to finish!

PRAYER REQUESTS...

- Bible Studies taught by men in the church
- Raising up pastors - transitioning the church
- Strength for those who are standing for Jesus!
- The people in the Bukid - to be open to Jesus!
- The construction of the new church
- Story of Jesus outreach - 25,000 copies!
- The radio - direction with the NTC 'franchise'
- Our marriage - grow closer to Jesus / each other
- Flexibility and humility - be full of Jesus!

We also have been blessed to have some of the youth (*and kids*) from the church stepping up to learn how to play guitar and drums to help out with worship. A couple of the girls from the youth group now lead worship for the Mid-week studies, as well as help on Sunday mornings. A few of the boys have also picked up the drums and help out on Sundays. It is a blessing to see the young believers out in faith and using their gifts and talents for the Lord!
